University degree ideas:

This ideas creator for university degrees is just that – it can be used to help you explore some of the possibilities open to you. It is by no means an exhaustive list but hopefully will inspire you to consider, and further research, a wide range of potential courses for further study.

The best way to search for potential courses is to go onto the UCAS website https://www.ucas.com/ and search for courses/keywords of interest. You can also check the grades you will need to study the course and make sure you have taken the appropriate qualifications.

At the end of the guide, there is also a selection of some obscure degree courses for consideration and inspiration!

Subject	Possible Courses at degree level
Fine Art	Art, fine art, photography, advertising, animation, illustration, archaeology, art and design, fashion design, history of art, architecture, visual arts, graphics, theatre arts, anthropology, film and visual culture, computer arts, games art and development, performing arts, ceramics
Biology	Biology, chemistry, physics, medicine, dentistry, veterinary science, animal science, equine science, zoology, physiotherapy, occupational health, marine biology, forensic science, biochemistry, anthropology, botany, ecology, nutrition, environmental health, human biology, microbiology, midwifery, paramedic science, engineering, pharmacology, physical education, psychology, sports science, chiropractic, molecular biology, archaeology, sports psychology
Business Studies	Accountancy, advertising, banking, economics, business administration, law, ICT, maths, marketing, finance, insurance, public relations, travel and tourism, management, hospitality, food and consumer sciences, agriculture, equine business management, business, music business and innovation, fashion business, event management, enterprise, software engineering, actuarial science
Chemistry	Chemistry, biology, physics, engineering, agriculture, animal science, veterinary science, biochemistry, botany, chemical engineering, dentistry, medicine, equine science, earth science, nutrition, genetics, forensic science, zoology, physiotherapy, chemical engineering, archaeology, pharmacology, geology
Dance	Theatre, acting, arts management, American theatre, choreography, dance, drama, directing, education, stage management, English literature, musical theatre, events management, costume design, performing arts, dance and early childhood, sports and dance therapy, creative enterprise, creative writing, English language, physical education
Drama and Theatre Studies	Theatre, acting, art and design, acting, directing, make-up and costume design, theatre design, musical theatre, English language, English literature, events management, public relations, broadcasting, classical civilisations, education, creative arts, film studies, media studies, fashion/costume design, liberal arts, interior and spatial design, performing arts, scriptwriting, performance (lots of degrees are combined, such as with a European language)
English Language	English language or literature, teaching, advertising, creative writing, American studies, broadcasting, journalism, classical civilisations, communication, drama, cultural studies, history, languages, linguistics, media studies, philosophy, public relations, publishing, theatre studies, sociolinguistics, liberal arts, business management, drama, modern languages, dance, family and childhood studies,

	criminology (lots of degrees are combined, such as with history or another European language)
English Literature	English language or literature, teaching, creative writing, journalism, philosophy, media studies, drama, classical civilisations, theatre studies, liberal arts, creative writing, dance, languages, linguistics, communication, liberal arts, arts and humanities, American studies, film studies, early childhood studies, literature, law, publishing, marketing
French	French, teaching, African languages, European studies, European languages, history, international business studies, travel, tourism, French studies, French law, translation studies, international politics, modern languages, film/media, liberal arts, philosophy, law, applied languages and translation, childhood studies, (this subject combines with just about any other)
Geography	Geography, geology, environmental science, African studies, American studies, agriculture, anthropology, ecology, archaeology, development studies, teaching, human geography, land economy, meteorology, oceanology, planning, politics, surveying, travel, tourism, marine geography, business studies, environmental science, volcanology, environmental health, business economics, physical geography, wildlife conservation, economics, conservation
German	German, African Languages, European Languages, European studies, teaching, history, international business studies, international finance, law, linguistics, literature, tourism management, travel, German studies, translation studies, liberal arts, classical studies (this subject combines with most others)
Health and Social Care	Beauty therapy, childhood studies, teaching, psychology, care management, criminology, early years education, occupational therapy, physiotherapy, youth work, speech therapy, health and social care, policy and politics, social work, nursing, public health, midwifery
History	Law, journalism, history, teaching, American studies, ancient history, archaeology, classical civilisations, government, politics, law, international relations, philosophy, sociology, war studies, history of art, anthropology, fashion, liberal arts, fine art, English, natural history photography, film studies, European arts, economics
ICT	Computer science, business studies, software engineering, computer networking, artificial intelligence, bioinformatics, computer games designing, computer modelling, finance, forensic computing, geography, information science, maths, robotics, computing, computer arts, sound design, visual effects design, music technology, animation, theoretical and computational physics, ICT management, actuarial science, web design, app development, digital culture, acoustics, data science
Law	Law (all forms – business, European etc.), criminology, estate management, European parliamentary studies, government, politics, international relations, history, philosophy, land economy, police studies, social policy, environmental science, crime and investigative studies, sociology, business studies, business management, computer forensics, human resources management
Mathematics/ further mathematics	Accountancy, actuarial science, architecture, biochemistry, business studies, chemistry, physics, ICT, dentistry, engineering, geography, environmental science, geology, management studies, medicine, psychology, philosophy, physiotherapy, sports science, veterinary science, economics, robotics, cybernetics, surveying, teaching, maths, data science, computer science, construction, theoretical physics, agricultural engineering, artificial intelligence, civil engineering
Media Studies	Creative writing, media studies, journalism, film studies, advertising,

	broadcasting, communication studies, fashion promotion, public relations, sociology, scriptwriting, drama, graphic design, creative studies, fine art, digital production, English language and literature, animation and visual effects, television production, acting and performance, wildlife media, communication arts, events management
Music	Education, music, music therapy, sound engineering, sound recording, acting, acoustics, creative music technology, digital music, music composition, music industry management, musical theatre, performing arts, stage management, world music, English, music business, audio technology, marketing, dance, events management, media, broadcasting, film music and soundtrack production, journalism, film and television, creative therapies, liberal arts, festival management
Photography	Photography, digital and lens media, fashion, film studies, history of art, imaging, radiography, journalism, television studies, media studies, visual culture, fine art, theatre studies, animation, visual communication, television production, graphic design, advertising, anthropology, filmmaking, archaeology,
Physical Education	Sports coaching, equine studies, exercise and health, health studies, health education, dance, leisure management, nursing, occupational therapy, physical education, physiotherapy, teaching, sports science, sports management, sports coaching, nutrition
Physics	Acoustics, architecture, astronomy, astrophysics, electronic broadcasting, engineering (in all forms), cybernetics, geology, teaching, physics, medicine, veterinary science, metallurgy, theoretical physics, mathematics, nuclear science, chemical physics, natural sciences, mathematical physics, environmental science, biomedical science, meteorology, experimental physics, healthcare science, radiography, microelectronics, oceanography, optometry
Psychology	Biology, medicine, linguistics, teaching, psychology (all forms), philosophy, anthropology, sociology, animal behaviour, artificial intelligence, business studies, childhood studies, cognitive science, counselling, human resources, criminology mental health, human science, marketing, nursing, occupational therapy, public relations, robotics, social care, social work, speech therapy, behavioural studies, osteopathy, neuroscience, law, physiology, history
Religious Studies	Philosophy, theology, criminology, journalism, medicine, education, Religious Studies, ancient history, anthropology, archaeology, biblical studies, classical civilisations, divinity, history, sociology, ethics, English, liberal arts, drama,
Sociology	Sociology, psychology, English, media studies, law, advertising, nursing, social work, education, public relations, anthropology, business studies, communication studies, history, economics, geography, government and politics, media studies, philosophy, criminology, social science, osteopathy, international relations, public services, nutrition, social analytics

Some more unusual ideas… If you need some inspiration!

1. Theatre Practice (puppetry) at the Royal Central School of Speech and Drama
2. International Spa Management at the University of Derby
3. Viking Studies at the University College London

4. Applied Golf Management at the University of Birmingham
5. Adventure Education at the University of Chichester
6. Baking Technology Management at the London South Bank University
7. Circus and Physical Performance at the Bath Spa University
8. Yacht Operations at the South Devon College
9. Surf Science Technology at the Cornwall College
10. Education Studies at Durham University have a Harry Potter module
