

How to help your child

Subject: Child Development

	How to help your child
Year 10	Encourage your child to revise thoroughly for tests and examinations. Support her to complete coursework and meet deadlines. Watch programs such as one born every minute, BBC Life & Birth. Visit the NHS website which has excellent information on many of the topics. Visit ROSPA website for information on all aspects of safety and preventing accidents. Encourage her to have contact with children under the age of five to plan and carry out activities. Attend revision sessions run by department. The department has given all students access to the online textbook through Boost Learning.com which can be viewed on a computer, tablet and on a phone through the app.  Other resources Revision guides. 
Year 11	Encourage your daughter to revise thoroughly for tests and examinations. Support her to complete coursework and meet deadlines. Watch programs such as one born every minute, BBC Life & Birth. Visit the NHS website which has excellent information on many of the topics. Visit ROSPA website for information on all aspects of safety and preventing accidents. Encourage her to have contact with children under the age of five to plan and carry out activities. Attend revision sessions run by department.
